Three (3) sets of detailed blueprint drawings depicting the LPG system, including, but not limited to: lay out of the property with planned measurements from all structures, Equipment , property lines, and roadways, The location of the storage equipment and tanks, Piping, protective fencing and/ or structures.

The drawings shall be required to be submitted to the Fire Marshal's Office for plans approval prior to the system installation. Manufacture's Data Sheet(s) shall be provided for all devices.

The Fire Marshal's Office shall witness all final testing prior to the occupancy of the building, or use of the equipment.

I hereby attest that the information provided in the application is true and correct to the best of my belief: that as permittee, the installation shall be in accordance with all national, state and local recognized standards and codes governing LPG Storage and/or Distribution systems, whether or not herein specified.

(Application may be faxed to (512) 620-0001 or e-mailed to cbrowning@lockhart-tx.org Full Plans will still need to be delivered to the office unless they can be reduced to standard page size successfully, however application must be reviewed and permit issued prior to actual Construction occurrence)
