

ATTENTION

BUILDERS, DEVELOPERS, AND SUBDIVIDERS

The City of Lockhart has updated its impact fees to reflect the current cost of infrastructure projects, and to make adjustments to the road, water, and wastewater impact fee capital improvements plans. The new fees are higher than the previous impact fee rates. However, the previous fees will remain in affect for all building permits until October 1, 2017.

In addition, building permits for construction on lots shown on a final subdivision plat approved before October 1, 2017, will continue to be charged the previous fees until October 1, 2019. Building permits for construction on all other lots will be charged the new rates effective October 1, 2017.
